DEPARTMENT OF MENTAL HEALTH

Section 536.175, RSMo, Administrative Rule Review

July 1, 2021 – June 30, 2022

Comment Appendix

9 CSR 30-3.032 Certification of Substance Use Disorder Prevention and Treatment Programs

COMMENT #1: A staff member requested that paragraph (4)(A)1. to 4. be removed and subsection (4)(A) be amended to state, “Organizations requesting certification must comply with 9 CSR 10-7.130, Procedures to Obtain Certification, by submitting a fully completed application to the department.”

RESPONSE AND EXPLANATION OF CHANGE: The rule has been amended as requested.

9 CSR 30-3.100 General Requirements for Substance Use Disorder Treatment Programs

COMMENT #1: A staff member requested that Qualified Addiction “Specialist” in subsection (2)(B) be changed to Qualified Addiction “Professional”.

RESPONSE AND EXPLANATION OF CHANGE: The language has been changed as requested.

9 CSR 30-3.110 Service Definitions, Staff Qualifications, and Documentation Requirements for Substance Use Disorder Treatment Programs

COMMENT #1: George Oestreich, Pharm.D., MPA, Principal, G.L.O. & Associates, provided comments regarding subsection (1)(O) medication services, and subsection (1)(P) medication services support.

Dr. Oestreich commented that pharmacists are, by education and training, drug experts. Missouri citizens should be allowed access to pharmacists when participating in the key service functions such as screening for and educating on medication side effects, changing medication orders, and consulting on medication monitoring and management, as included in this service.

As promulgated by the Missouri Pharmacy Practice Act (RSMo, 338.010) and defined by the Missouri Board of Pharmacy in 20 CSR 20-2220-6.070 and 20 CSR 2220-6.080, pharmacists can work under a collaborating practice agreement, referred to as a medication therapeutic plan or medication therapy services (MTS) by pharmacists, to make necessary therapy changes similar to an APRN. Pharmacists are highly qualified healthcare professionals capable of performing the key services listed above.

There is specialized training that many Missouri pharmacists have acquired in managing psychotropic medications. The Department of Mental Health already recognizes and lists, "A psychiatric pharmacist as defined in 9 CSR 30-4.030" as a Qualified Mental Health Professional (QMHP) in 9 CSR 10-7.140

We recommend that pharmacists be included in the list of providers who are qualified and can provide medication services and medication services support.

RESPONSE AND EXPLANATION OF CHANGE: The department appreciates the comments from Dr. Oestreich. Due to staff requirements included in the current Medicaid State Plan Amendment for the Comprehensive Substance Treatment and Rehabilitation (CSTAR) Program,

pharmacists cannot be added at this time. When the CSTAR State Plan is opened in the future to make necessary program changes, the department will consider the addition of pharmacists as qualified practitioners of the CSTAR agency to provide medication services and medication services support. This will be subject to approval by the Centers for Medicare and Medicaid. Not all certified CSTAR programs employ or have a contractual relationship with a pharmacist(s) to provide services, therefore, their addition as a qualified provider may benefit a limited number of programs throughout the state.

COMMENT #2: A staff member requested that “Inc.” be removed from “Missouri Credentialing Board” in section (3), as that is incorrect.

RESPONSE AND EXPLANATION OF CHANGE: The department agrees and made this change

RESPONSE AND EXPLANATION OF CHANGE: The department concurs and made the requested change.

COMMENT #1: In reviewing this proposed amendment, department staff determined that additional information is necessary in subsection (1)(B) to clarify the process for interested service providers to submit a proposal to provide ICPR.

RESPONSE AND EXPLANATION OF CHANGE: The sentence in subsection (1)(B), “Written proposals shall be submitted to the department in accordance with established protocol” has been changed to, “Written proposals shall be submitted to the department and must include the following:” The department also modified the amendment by adding new paragraph (1)(B)1. through 9. which includes information that must be submitted with a proposal to provide ICPR.
